Order code example: **BLADE-2-CLR200**.

BLADE-2

APPLICATIONS

The aluminum profile Blade-2 is designed for integration in plasterboard ceilings, with which it is possible to realize luminous blade grooves with a minimal design. Blade-2 is designed for the installation of 2 led modules in different positions, depending on the application required and the size of the light groove to be made. It is also possible to equip the profile with both white and RGB modules, in order to create captivating color scenes.

FEATURES

Create luminous blade grooves

Easy installation on plasterboard

Minimal design
